

Compass SchoolHouse

Enrichment Session #3

We now offer AM & PM Enrichment classes Monday through Friday!

Math, Science, Fitness, Foreign Language, Art, Music, Technology, Drama, Movement, Engineering, Nature, Cooking, and FUN are all components of the Compass SchoolHouse Enrichment Series. Students learn in a small group setting taught by our CSH staff.

Extend your child's day or add an Enrichment class (teamed with Lunch Bunch) to your child's week on a day they don't regularly attend school.

SESSION 2: January 2 – February 16 AM Time: 9:45-11:15 PM Time: 12:45-2:15

Mondays – 1/8, 1/22, 1/29, 2/5, 2/12

COMPASS COOKS – Cooking inspires childrens' curiosity, thinking, and problem solving, offering new opportunities to make predictions and observations. By following recipes students will learn about measuring, one-to-one correspondence, numbers, and counting. As they follow a recipe, children organize ingredients, follow a sequence, and carry out multiple directions.

Tuesdays – 1/2, 1/9, 1/16, 1/30, 2/6, 2/13

STEM STARS – Students will be immersed in brain building experiences in Science, Technology, Engineering, and Math! Using a variety of materials and activities, students will experiment, make predictions, share discoveries, ask questions, wonder how things work, identify and solve problems, design, create, build, measure, and more. The curriculum is intentionally designed to focus and refine the naturally inquisitive behaviors of young children.

Wednesdays – 1/3, 1/10, 1/17, 1/31, 2/7, 2/14

CSH THEATRE ARTS – The Arts provide a playground for the mind of a child. Through a collaboration of music, drama, dance, and freestyle movement, students will use their creative selves to dance, act, and create characters from their imaginations. The focus will be on ***the process of collaboration and creation***, rather than the finished product, creating a stress free environment in which all children are able to grow and learn.

Thursdays – 1/4, 1/11, 1/18, 1/25, 2/1, 2/8, 2/15

SPANISH – Through play and exploration, listening, seeing, imitating, and practicing, young children can learn a language quickly and easily. Students will be introduced to rhymes, songs, games, counting, and conversational skills in Spanish.

Fridays – 1/5, 1/12, 1/19, 1/26, 2/2, 2/9, 2/16

"ANIMALS" YOGA - Through yoga, students will develop body awareness, refine their balance and coordination, enhance their flexibility, develop focus and concentration, learn calming techniques, and more - all while having FUN in the process! Each week students will learn new yoga poses embodying various types of animals such as farm animals, sea creatures, house pets, and more. This class incorporates music, gentle time, story telling, cooperation, and self awareness.

Class size will be limited. Those registered for an Enrichment class will be given priority for Lunch Bunch on the day he/she attends Enrichment. Please use a separate Lunch Bunch registration form to sign up for Lunch Bunch on those days.
